

The Swell Show

A Swell Show is a very unique and exciting rock performance! We pay tribute to your musical heroes by arranging our show into mini-tributes called Artist Pods. Each Pod pays tribute to artists by playing three songs that showcase their talent and range - usually their biggest hits that takes you back to the first time you heard them! From soaring leads, to stunning harmony vocals, to mind bending rhythms, Swell plays their songs to perfection while you enjoy on-stage choreography backed by specially curated video and lighting! A true multi-media experience that you'll talk about long after the Show ends! In addition to our specific Artist Pods, Swell will surprise you with Mash-up Pods that pay tribute to multiple artists. All of our Pods are designed to get you up out of your seat to dance and sing along with us!
